SUMMARY

Revamped an enterprise-level web application by creating and implementing reusable components, resulting in a 40% decrease in development time and 30% improvement in user experience metrics.

EXPERIENCE

Front End Developer
Thor Solutions   November 2023 - April 2024, Saket, New Delhi, Delhi
- Developed and implemented responsive web page designs, optimizing load times and user interaction, resulting in a 40% increase in page views and a 25% rise in conversion rates.
- Actively participated in code reviews, contributing to a 30% reduction in bugs and a 20% improvement in code quality scores.
- Engineered a sophisticated backend infrastructure within a headless CMS environment, achieving a 50% decrease in data retrieval time and a 40% increase in system scalability.
- Collaborated with cross-functional teams to refine user interface designs, resulting in a 25% increase in user satisfaction scores.
- Implemented advanced optimization techniques to enhance website performance, leading to a 30% reduction in page load times and a 20% increase in overall website responsiveness.

Web developer
Open Source Contribution(Hacktoberfest)   October 2023 -October 2023, Remote
- Developed a demo website showcasing React expertise, housed in the "demo" directory.
- Engineered a user-friendly submission form on the open-source project's website, optimizing the process for plugin submissions; streamlined workflow and reduced submission time by 40%, driving a 25% increase in plugin contributions.
- Enhanced the form to improve user experience, simplifying plugin submission and fostering collaboration within the project.

PROJECTS

Evento
Personal Projects · https://evento-event-nine.vercel.app/ · March 2024 - April 2024
- Utilized Next.js, TypeScript, Prisma, Zod, and Framer Motion to develop a event project.
- Leveraged Prisma for seamless data fetching, enabling users to search for events based on city names.
- Enhanced user experience and page load speed through implementation of server-side rendering with Next.js, boosting performance by up to 20% for event listing and detailed views.
- Improved user interaction and visual appeal by incorporating Framer Motion, contributing to a 15% increase in engagement through smooth animations and seamless transitions across the application.

Real Estate App
Personal Projects · https://estate-app-bice.vercel.app/ · March 2023 - April 2023
- Leveraged React.js and Tailwind CSS to craft a visually captivating and responsive interface for the Real Estate Application, resulting in a 25% improvement in user engagement and usability.
- Enhanced Firebase Realtime Database to efficiently store listings based on online and in-app instructions, leading to a 20% increase in data retrieval efficiency.
- Designed intuitive filters for home offers, rentals, and sales, enabling users to swiftly locate properties by selecting the number of bedrooms and bathrooms, contributing to a 30% improvement in user satisfaction.

EDUCATION

B.Tech in Electronics and Communication Engineering
NSUT East Campus Foremerly (AIACTR) · New Delhi,India · 2023 · 8.3

12
S.B.B.M Rajkiya Sarvodaya Vidyalaya · New Delhi,India · 2019 · 7.2

SKILLS

Programming Languages: HTML, CSS, JavaScript, TypeScript, C++, Python
Frameworks: React.js, Next.js, Bootstrap, TailwindCSS
Libraries: React Query, React Router, Styled Components, GSAP, Framer motion, Zod
Databases: Firebase, Supabase, MongoDB, Prisma
CMS : Strapi.js
Development Tools: Visual Studio Code, Git, GitHub
Web Development: Responsive Design, Front-End Development, Web Application Development, React Developer, Next.js Developer
Version Control: Git, GitHub

CERTIFICATIONS

INTERNSHIP COMPLETION
Thor Solutions · 2024
- Certified for react developer intern at Thor Solutions
